

Autumn E-postcard:

We're enjoying a lovely mild autumn here at the lake with a wonderful display of colours erupting on the surrounding hillsides. The time has arrived for olive picking with families gathering to harvest their trees and send their crop off to be pressed. We have lent a hand and been rewarded with flavoursome home grown olive oil that can be enjoyed with freshly baked bread or lavished on a crisp salad. The locally available produce is second to none and makes cooking such a pleasure.

The Saturday market in Salò is an all year round event and is quite a spectacle. Traders take a pride in the quality of their goods and we love to buy some fresh lake fish for lunch such as coregone, luccio or salmerino.

For winter 2011/2012 we are repeating our New Year, New You breaks which are excellent for kick starting all those promises you made to yourself that next year will be better! Of course, changes are not just for New Year, but can be made anytime.

If you want to life to be better but can't quite make it happen then consider a Stepping Off Break. We will help you consider what your personal obstacles are. Sometimes you need to get away from the usual routine to see the wood from the trees. Time spent with us helps you develop a realistic plan so that when you return home you're ready to take action!

Gather a few friends together and come for an off season break, have some fun and give yourself that extra boost to see you through the winter. Discover friendly trattorias, have long lunches with outstanding Italian cuisine. Book early for spring as it's always good to have something to look forward to!

Please e-mail us with any questions or requests about specialised breaks or if you would like to come as a small group then ask about our latest discounts.

Ci vediamo,

Lesley and Gordon
